Section-I

Introduction

The Pradhan Mantri Fasal Bima Yojana (PMFBY) & Restructured Weather Based Crop Insurance Scheme (RWBCIS) are the flagship crop insurance schemes launched by Govt. of India in 2016 and Tamil Nadu is implementing Pradhan Mantri Fasal Bima Yojana (PMFBY) alone for the past 14 major crop seasons as per the operational guidelines and instructions issued by the Department of Agriculture & Farmers Welfare, Government of India from time to time. All instructions issued by the Department of Agriculture & Farmers Welfare, Government of India will be applicable during the tender period.

PMFBY is an index-based insurance scheme. The financial loss of a farmer growing notified crops in notified areas is calculated under PMFBY by comparing Actual Yield of the crop for a season against pre-defined historical Average Yield Index values.

All farmers growing the notified crops in notified areas can insure their crops under the scheme. However the enrollment of farmers under the Scheme is voluntary. Farmers are required to pay a nominal premium as their share in the premium and the balance premium is paid by the Central and State Government. State Government selects the Insurance Company for implementation of scheme through competitive bidding. Selected Insurance Company is responsible for claim compensation to the affected farmers based on the claim settlement protocol defined in the operational guidelines of the scheme. Apart from State Government, Farmers and Insurance Company, there is a wide and important role of other stakeholders like Financial Institutions (Nationalised Banks, Commercial Banks, Primary Agricultural Credit Co-operative Societies), Common Service Centres (CSC), Insurance Intermediaries, District Administration who are liable to perform their roles and duties as defined in operational guidelines and the instructions issued/will be issued in future by the Department of Agriculture & Farmers Welfare, Government of India regarding implementation of Revamped PMFBY.

1. Enrollment of Farmers:

a) All farmers including sharecroppers and tenant farmers growing the notified crops in the notified areas are eligible for coverage. However,

farmers should have insurable interest for the notified / insured crops.

b) Even though enrolment of loanee farmers is voluntary, all the Loanee farmers who have been sanctioned Seasonal Agricultural Operations (SAO) loans from Financial Institutions for the Notified Crops / Seasons will be deemed covered automatically unless a declaration for opting-out is given by the farmer in writing to the concerned bank / branch any time during the year but atleast 7 days prior to the cut-off date for enrolment of farmers for the respective seasons.

c) All the Non-Loanee farmers are required to submit online or physical copy (as applicable), necessary documentary evidence of land records prevailing in the State (Records of Right (RoR), Land Possession Certificate (LPC) etc.) and / or applicable contract / agreement details / other documents notified / permitted by Tamil Nadu State Government. In case of sharecroppers / tenant farmers and the same will be defined by the State in the notification itself.

d) Non-Loanee farmers can enroll themselves under the scheme through nearest bank branch, Common Service Centres, authorized and licensed Insurance Intermediaries appointed by concerned Insurance Company or directly through field employees of concerned insurance company or National Crop Insurance Portal (NCIP).

e) All farmers can change the name of insured crop upto 2 working days before the cut-off date for enrolment subject to terms & conditions and provisions mentioned in the Operational Guidelines of PMFBY.

2. **Period of Contract & Selection of Insurance Companies as Implementing Agency (IA):**

f) Tamil Nadu will be implementing **60:130 Cup and Cap Insurance Model** wherein Risk and Surplus Sharing will be done at cluster level. Insurance Company will bear the risk upto a Claim ratio of 130% and GOI & the State Government will share the risk equally when Claim ratio exceeds 130%. When Claim ratio is between 0% to 60%, the IC shall retain 40% and GOI & State Govt. will equally share the surplus (60% minus actual claim ratio)

g) This Tender document will be a single cover system of quoting Premium Rates for Kharif, Special Season & Rabi Seasons of **2024-2025 and 2025-2026** for crops to be insured under PMFBY in the clustered districts of Tamil Nadu. **The tender committee is the deciding authority to finalize the rates. However, it may be noted that the probable acreage coverage annexed is only for the purpose of calculating weighted premium. This is only an indicative and will be used for evaluating L1 bidder. This area is only an estimation and approximation. The enrolment depends on the farmers as it is a voluntary scheme.

p) The State Government gives no guarantee that the final coverage will be as per the provided figures. The Insurance Companies are bound to honour the coverage irrespective of whether the coverage is more or less compared to the given figures.

In order to maintain the transparency and credibility of Crop Cutting Experiments (CCEs) as an objective method of yield estimation, the modalities mentioned in the Operational Guidelines of PMFBY shall be followed. **The Actual Yield Data as approved and uploaded by the State Department of Economics & Statistics on NCIP shall be used for Loss assessment.**

12. Yield Estimation System based on Technology (YES-TECH):

As outlined in the advisories and guidelines issued by the Government of India, **Yield Estimation System based on Technology (YES-TECH)** which is made mandatory will be adopted for **Paddy crop** alone across the state, without impacting the quality of sampling and estimation results along with the present CCE procedures. GOI has recommended 5 models viz., Semi Physical Model, AI Model (Machine Learning / Deep Learning), Crop simulation models, Ensemble models (Machine Leaning / Crop simulation / Semi physical) and Crop Health Factor.

For better yield estimation of Paddy, the yield data based on conventional Crop Cutting Experiments (CCE) and YES-TECH using semi physical model (Paddy I (Kharif) and Paddy III(Rabi))/ Crop simulation model(Paddy II (Special season) with a weightage in 70:30 proportion will be adopted adhering to the protocols of YES-TECH. The protocol as developed by GOI will be followed for estimation of yield using these models. Subsequent modifications in YES-TECH manual during the course of implementation shall also be followed for implementation of Technology based yield estimation. Moreover the selected model for technology based yield estimation and the proportion of weightage are subject to change as decided by the SLCCCI before commencement of new season whereas the yield of Non-Paddy crops will be estimated based on

conventional CCE method.

Tamil Nadu Agriculture University has been notified as the **Technology Implementation Partner** (TIP) for Tamil Nadu State by Government of India and **National Remote Sensing Agency as Mentoring Institute for Technology and Review (MITR).** The cost of implementing the YES-TECH component would be shared, between Centre and State on sunset basis: First year : 90:10; Second Year : 80: 20 and Third year : 60:40.

Further any clarifications, notifications and circulars etc. issued from time to time by the GOI, MNCFC and Government of Tamil Nadu shall always be binding on all Implementing Agencies. In case of any disputes in yield estimation, the ground truthing along with the CCEs conducted as per the field procedures and the decision of District Level Steering Committee (DLSC) will be taken as final. If any insurance company raises any objection relating to the Technology based yield estimation, the same will be resolved by the protocol developed by YES-TECH Committee of Government of India.

13. Assessment of Payable Claims:

a) Wide-Spread Calamities

If 'Actual Yield' (AY) per hectare of insured crop for the insurance unit (calculated on basis of requisite number of CCEs) in insured season, falls short of specified 'Threshold Yield' (TY), all insured farmers growing that crop in the *defined* area are deemed to have suffered shortfall of similar magnitude in yield. PMFBY seeks to provide coverage against such contingency.

'Claim' shall be calculated at IU level as per the following formula:

$$\frac{\text{(Threshold Yield – Actual Yield)}}{\text{Threshold Yield}} \times \text{Sum Insured}$$

Where Threshold Yield (TY) for a crop in a notified insurance unit is the average yield of best 5 years from past seven years of that season multiplied by applicable Indemnity Level for that district.

b) Add-on / Additional Coverage:

1. Prevented / Failed Sowing and Prevented Planting / Germination losses
2. Mid-Season Adversity
3. Post-Harvest Losses

4. Localized Risks

Loss assessment and claim settlement will be as per detailed protocol defined in the relevant sections of Operational Guidelines.

14. Claim liability and settlement procedure:

Insurance Company shall take appropriate re-insurance support for their portfolio in order to safeguard insured's interest. All payable claims under the scheme will be settled in accordance with the corresponding provisions contained in Operational Guidelines of PMFBY. **The Selected Insurance Companies should compulsorily share information on enrolment, basis for calculation of claims, Insurance Unit wise yield loss percentage, Disbursement of claims etc at the end of every season with the Department of Agriculture, Government of Tamil Nadu.**

Government of Tamil Nadu has resorted to plethora of best practices to ensure that only the eligible farmers and accurate area are compensated for the crop loss. The claim management measures and the best practices adopted by Government of Tamil Nadu has curbed the practice of both insuring and extending compensation to ineligible area / farmers. These practices will be followed during Kharif, Special and Rabi seasons of 2024-2025 and 2025-2026.

- Identification and rejection of duplicate & fake applications.
- Application of Area Correction Factor avoided (Area insured over & above area sown in an Insurance Unit).

b. CMM - Strengthening the Audit Process of Conduct of Crop Cutting Experiments (CCEs)

- Exclusive staff outsourced to conduct CCEs & co-ordinate with Insurance Companies (ICs).

- Conduct of additional CCEs in adverse conditions as and when necessity arises.

c. Integration of land records with NCIP through GRAINS (Grower online Registration of Agriculture INput System):

The Agriculture and Farmers Welfare Department, Government of Tamil Nadu will implement GRAINS **(Grower online Registration of Agriculture INput System)** which consists of **3 core registries** as follows for providing validated data of a farmer, land and crop that will be shared digitally to the central portal of PMFBY to facilitate registration of farmers for crop insurance.

- **Farmers Registry** : Robust farmer database with validated farmer details(Mobile number and Aadhaar number integrated with Survey/Sub-division number, Patta number and the extent of Records of Rights);
- **Geo Referenced village map registry** for 16,721 revenue villages across Tamil Nadu to access digital geo-fenced land parcels of the individual farmer.
- **Crop survey registry:** Geo-referencing of land parcels integrated with farmers' database facilitates the Digital crop survey using geo-fencing. This Digital crop survey will be done in all season to ensure crop booking.

d. Wide Publicity & Campaigns

- Establishment of Facilitation Centres in 37 districts.
- Awareness campaigns in all the 385 blocks & in the notified Insurance Units.
- Publicity through Mass media, Van Campaigns.

e. Other Best Practices

- Rationalisation of Enrolment dates.
- Timely sanction of State share of premium subsidy to ICs.
- Timely furnishing of yield data for claim calculation.

15. Payment of Service Charges:

All payable service charges to Banks, CSC, other Intermediaries under

the scheme will be paid by the insurer (ICs) in accordance with the corresponding provisions contained in Operational Guidelines of PMFBY and IRDAI regulations on Payment of commission or remuneration or reward to insurance agents and insurance intermediaries.

Call center will also be designated to register the grievances and after due docketing, the same will be forwarded to the concerned stakeholder for disposal.

19. Performance Evaluation of Insurance Company:

The performance of the empanelled Insurance Companies will be monitored as per the detailed performance evaluation matrix containing key performance indicators with assigned weightage given in the Operational Guidelines of PMFBY.

20. Penal Provision:

Selected Insurance Companies have to follow the seasonality discipline and provision of Operational Guidelines and instructions issued by the State and Central Government from time to time to ensure that benefit of the Scheme is reached within the stipulated timelines. Non adherence of the guidelines and cut-off dates should attract penalty as envisaged in the Operational Guidelines.
